

How to Obtain a Passport :

Passengers of all ages returning to the U.S. by air from any international destination require a valid passport. A state-issued birth certificate with government issued photo I.D., or a passport “card” is not acceptable!

Passports must be in good condition and passengers may be denied boarding by the airline if a passport is damaged, mutilated or has excessive wear. **If your name on your passport (or for non-U.S. citizens, valid travel documents) does not match your name on your travel vouchers/tickets, you will not be allowed to travel. (When filling out the registration form, please put down your legal name as it appears on your passport!)**

For details on how to obtain a passport, contact your local courthouse or post office. For information on obtaining expedited passports visit www.abriggs.com/applevac. If you are not a U.S. citizen, contact the embassy of the country to which you are traveling to determine required entry documents. **Failure to comply with the above requirements will result in you not being allowed to travel.**

Expect your passport in four to six weeks. You can check the current processing times on the Department of State website. Keep in mind that some passports will be processed faster than others and passports mailed on the same day may not be processed in the same time frame. Check your passport's progress on the Department of State's website to find out when it was received and when it is approved.

How to Obtain a Passport :

- http://travel.state.gov/passport/passport_1738.html
- Get the US government forms you need to get a passport and start the application process. You can get a passport application at any **US Post Office**.
